

Welcome to the Monarch,
home to the largest bourbon selection in the state of Kansas.

With over 225 bottles of whiskey we have something for every palate. From classic Kentucky Bourbon to modern American Single Malt Whiskey and Rye you will find an eclectic selection of the finest spirits distilled today.

We're glad you are here to explore America's Native Spirit, feel free to peruse this Bourbon Book and don't hesitate to ask your server for suggestions. **Happy Sipping.**

Bourbon is America's Native Spirit and as such can only be distilled in the US. Bourbon must be at least 51% corn which lends a sweetness to the drink while a mixture of malted barley and either rye or wheat round out the flavor profile. With big bold flavors, bourbon is perfect for sipping neat or as a mixer.

Tennessee Whiskey could legally be defined as bourbon, checking all of the boxes the latter must meet. But Tennesseans are proud of their states spirit which adds a charcoal filtering process to the distillate before being aged in new oak barrels. It is claims that this mellows the final product.

Rye whiskey is, by law, made from a mash of at least 51 percent rye.

This creates a “spicier” flavor profile that has been the backbone of cocktails like the Sazerac. Today we are in the middle of a Rye renaissance with distilleries such as High West and Whistlepig who have cult like followings.

Every Scotch must mature in the country for at least three years and one day, using oak casks. There are varying styles, some are flavored heavily by peat smoke, others are light and fruity. Coastal whiskies are often flavored by the sea and a refined salinity can be found.
